

## EIG Brief Guide #7: ER2014 – Retailing of fireworks

Brief guidance for importers and suppliers of Category 1, 2 and 3 fireworks to the general public.

### Manufacture and Storage

Storage of fireworks is covered by the Explosive Regulations 2014 (ER2014) which describes general measures needed to prevent fire and explosion and minimise the effects in the event of a fire or explosion. They detail the “Separation Distances” needed around buildings holding explosives depending on the Hazard Type and quantities of explosives held, the structural nature of the building and the nature of neighbouring properties, roads etc. They also detail where licencing is required, who the licencing authority is and some of the conditions of the licence. Storage sites can be licenced by Local Authorities (up to 2te NEC) or by HSE.

### Security

General security provisions are covered by ER2014 but in most cases consumer fireworks are exempt from the security provisions in ER2014.

### Transport

All fireworks must be classified before they are transported. Fireworks that already have classifications from an ADR signatory country do not need to be reclassified in the UK but the importer should hold copies of any such classification documents in a form readily understood by the enforcing authorities. EIG have produced guidance on the changes to classification in the UK – see <http://www.eig.org.uk/eig2007/?p=271>

### Use

In general “use” is not covered by specific explosives regulations, however testing and product development on an explosive manufacturing site may be subject to specific licencing of an area or building.

### Product Conformity, Sale and Supply

Category 1, 2 and 3 fireworks must be CE marked according to the Pyrotechnic Articles (Safety) Regulations (See the EIG Guide at <http://www.eig.org.uk/eig2007/wp-content/uploads/pasr.pdf>

HSE has produced a guide for anyone selling fireworks at <http://www.hse.gov.uk/pubns/indg407.htm>

### More information

HSE’s website contains more information on compliance – see <http://www.hse.gov.uk/explosives/index.htm>

HSE has published two Overarching guides to ER2014

- L150 – dealing with the safety provisions of the Regulations
- L151 – dealing with the security provisions of the Regulations

In addition HSE has produced a guide for firework retailers which may shortly be available.
